
Village Hotels (Made-in-Singapore rooms)

Village Hotels by Far East Hospitality are situated in key heritage precincts. To play up their multicultural heritage experiences, the hotel chain launched a competition that invited young local art students to conceptualise, design and produce rooms with 'made-in-Singapore' themes. Winning artists will see their concepts showcased as actual rooms, available for bookings throughout the year, so guests have a chance to be immersed in the uniqueness of Singaporean culture.
